Administrative History

The Board of Consulting Engineers superseded the Advisory Board of Consulting Engineers that was created by the original Barge Canal Law (Chapter 147, Laws of 1903) and later abolished by Chapter 756 of the Laws of 1911. In its place, the State Engineer and Surveyor was empowered to employ occasionally, with the approval of the governor, one or more consulting engineers. These engineers reviewed both completed work and proposed projects. They reported directly to the State Engineer and Surveyor.

Scope and Content Note

This series contains printed forms completed by members of the Board of Consulting Engineers describing weekly assignments and duties performed. The reports were submitted to the State Engineer and Surveyor, and provide the dates covered by the report, assignments and duties performed on each day of the week (Monday through Saturday), total time worked for the week (in days) and the engineer's signature.
