Administrative History

Chapter 147 of the Laws of 1903, informally known as the Barge Canal Law, was an act passed by New York legislature making provision for issuing bonds for the improvement of the Erie, Oswego and Champlain canals. This act allotted up to one hundred and one million dollars for these improvements. Section 6 of this act stipulated that all work was to be done by contract and that detailed estimates for quantity of material and all items of work were to be made. Section 10 stated that all measurements, inspections, and estimates were to be made by the State Engineer and the engineers and inspectors appointed by him.
