Overview of the Records

Repository:	New York State Archives
Summary:	This series documents efforts to quantify canal water levels. Records include mean daily elevations of water surfaces at specified gages; mean daily discharges of water surfaces; and quarterly reports, which display similar information in a slightly different format. The information in the series is typically presented through charts.
Creator:	New York (State). Division of Canals and Waterways
Title:	Division of Canals and Waterways water elevation records
Quantity:	2 cubic feet
Inclusive Date:	1918-1965
Series:	B1796

Scope and Content Note

This series documents efforts to quantify canal water levels. The series is comprised of three distinct types of records: mean daily elevations of water surfaces at specified gages; mean daily discharges of water surfaces; and quarterly reports which display similar information in a slightly different format. The information in the series is typically presented through charts.
