---

## Scope and Content Note

---

These records consist of survey data from a 1901 report on the Barge Canal from the Hudson River to the Great Lakes by Edward Bond, the State Engineer and Surveyor, and a color map of the proposed alternatives of Cohoes and vicinity to accompany the report. The map was compiled from the surveys of the U.S. Board of Engineers on Deep Waterways, from canal surveys, and a local map of the city of Troy. The greatest series of high lift locks then known in the world was built at Cohoes Falls.
