Scope and Content Note

This series contains the audiovisual records of the program areas of wildlife management and pathology. Records consists of a variety of formats including audio cassettes, VHS and U-matic tapes, 16 mm film, and 8 mm video cassettes. Topics include animal reintroductions and sittings; diseases in animals including rabies and the West Nile Virus; environmental conditions in dumps and landfills; and footage of a variety of animals including bats, deer, bears, moose, and wood rats.

Additional records in this series include educational materials for school-aged students on wildlife and environmental education of habitats, species, ecosystems, and pollution. Records include student worksheets, teacher manuals, and associated videocassettes from the late 1980s and early 1990s.
