Administrative History

The Youth Commission was started in 1945 by chapter 556 of the laws of 1945. Its mission was to study and analyze problems of youth and prevention of delinquency; provide State financial aid to municipalities which operate approved youth bureaus, youth service and recreation projects; foster cooperation of State departments, municipalities, public and private agencies and local groups and committees; and foster educational programs in connection with delinquency and youth need. The commission held six regional offices across the state and included representatives from the Department of Social Services, the Department of Education, Department of Mental Hygiene, Division of Parole, Department of Corrections, and the Department of Labor.
