Scope and Content Note

These records contain abstracts of information originally included in deeds conveyed to purchasers of lands sold for unpaid taxes. The Comptroller's Office was in charge of selling lands for unpaid taxes until 1926, when that function was assumed by the Dept. of Taxation and Finance. Earlier volumes are handwritten; typed copies of abstracts begin in 1926. Some volumes contain tipped-in blank sample forms of the type that would have been used to create the original deed conveyed to the purchaser.
For each entry information includes blank and page numbers; date of sale; sale amount; to whom deeded, including name, municipality, and county of residence; description of property, including county and town, name of tract, number of acres, and description; and names of comptroller and deputy comptroller (later state tax commissioner).
